Important Fund Information (continued on next page)

Diversification does not guarantee a profit or eliminate the risk of loss.

There are special risks associated with an investment in the funds. Please see the funds' prospectuses for more details.

Performance quoted is past performance and cannot guarantee comparable future results; current performance may be lower or higher. Visit invescoaim.com for the most recent month-end performance. Performance figures reflect reinvested distributions,* changes in net asset value (NAV), the effect of the maximum sales charge and the effect of the applicable early withdrawal charge, unless otherwise stated. Investment return and principal value will vary so that you may have a gain or loss when you sell shares. (*For AIM Select Real Estate Income Fund only: reinvested at NAV, except for periods prior to March 12, 2007, when reinvestments were made at the lower of the closed-end fund's NAV or market price.)

The Class A share maximum sales charge is 5.50% for all AIM equity funds and 4.75% for all AIM fixed-income funds except AIM Limited Maturity Treasury Fund and AIM Tax-Free Intermediate Fund (1.00%) and AIM Floating Rate Fund and AIM Short Term Bond Fund (2.50%). AIM Money Market Fund Cash Reserve Shares and AIM Tax-Exempt Cash Fund are sold without sales charges. Some sales charges may be reduced or eliminated under certain conditions described in the funds' prospectuses.

Performance shown at NAV for Class A, B and C shares does not include the applicable front-end sales charge or contingent deferred sales charge (CDSC), which would have reduced the performance.

Class A3, P, S, Y and Investor Class shares have no front-end sales charge or CDSC; therefore, performance is at NAV.

Class B share returns include reinvestment of all distributions, changes in NAV and the effect of a CDSC, which declines from 5% in the first year to zero at the beginning of the seventh year.

Class C share returns include reinvestment of all distributions, changes in NAV and a 1.00% CDSC. No CDSC will be imposed on redemptions of Class C shares following one year from the date shares were purchased.

Investor Class shares are closed to new investors. Investors should contact their financial adviser about other share classes.

Class R shares are available only to certain retirement plans. Class R shares have no front-end sales charge, and returns shown at NAV do not include a 0.75% CDSC that may be imposed on a total redemption of retirement plan assets within the first year.

Class S and Y shares are available only to certain investors. Please see the prospectus for more information.

Footnotes

A Had fees not been waived and/or expenses reimbursed currently or in the past, the fund's yields and/or total returns would have been lower. Please see the table on page 11, which lists what the fund's yields would have been.

B Investor Class shares' returns since the inception date are historical returns. All other returns are blended returns of historical Investor Class share performance and restated Class A share[†] performance (for periods prior to the inception date of Investor Class shares) at NAV and reflect the higher Rule 12b-1 fees applicable to Class A shares. Investor Class shares would have had different returns due to differences in its expense structure. ([†]Cash Reserve shares for AIM Money Market Fund.)

C Class R shares' returns since the inception date are historical returns. All other returns are blended returns of historical Class R share performance and restated Class A share[†] performance (for periods prior to the inception date of Class R shares) at NAV, adjusted to reflect the higher Rule 12b-1 fees applicable to Class R shares. Class R shares would have had different returns due to differences in its expense structure. ([†]Cash Reserve shares for AIM Money Market Fund.)

D On April 13, 2006, the fund reorganized from a closed-end fund to an open-end fund. The inception date for the open-end fund's Class A and R shares is April 13, 2006. Returns since that date are historical returns. All other returns are blended returns of historical Class A and R shares and restated performance of the closed-end fund's Class B shares (for periods prior to the inception date of the open-end fund's Class A and R shares) at NAV and reflect the higher annual management fees and 0.25% annual Rule 12b-1 fee applicable to the closed-end fund's Class B shares, which incepted May 1, 1997. Class C share returns prior to April 13, 2006, are the historical performance of the closed-end fund's Class C shares, which incepted March 31, 2000.

Important Fund Information (continued on page 11)

- E Class A shares' inception date is April 30, 2004; returns since that date are historical returns. All other returns are blended returns of historical Class A share performance and restated Class C share performance (for periods prior to the inception date of Class A shares) at NAV, adjusted to reflect the higher Rule 12b-1 fees applicable to Class C shares. Class A shares would have had different returns due to differences in its expense structure.
- F Class A3 shares' inception date is Oct. 31, 2002; returns since that date are historical returns. All other returns are blended returns of the historical performance of the fund's Class A3 shares since their inception and the restated historical performance of the fund's Class A shares (for periods prior to the inception of the Class A3 shares) at NAV, adjusted to reflect the higher Rule 12b-1 fees applicable to Class A3 shares.
- G Effective Oct. 31, 1997, the fund converted to an open-end fund. Performance data from Jan. 11, 1994, to Oct. 31, 1997, is based on performance and expenses of the closed-end fund; performance beginning Nov. 1, 1997, is based on the open-end fund. Fees and expenses of the open-end fund differ from those of the closed-end fund.
- H A 2% redemption fee will be imposed on redemptions or exchanges out of the fund within 31 days of purchase. Exceptions to the redemption fee are listed in the fund's prospectus.
- I On March 12, 2007, the fund reorganized from a closed-end fund to an open-end fund. Class A share returns prior to March 12, 2007, are the historical returns of the closed-end fund's common shares, which incepted May 31, 2002. The inception date for the open-end fund's Class B and C shares is March 9, 2007; returns since that date are historical returns. All other returns are blended returns of historical Class B and C shares and the historical performance of the closed-end fund's common shares at NAV, restated to reflect the 1.00% annual Rule 12b-1 fee applicable to Class B and C shares and other annual expenses of Class B and C shares, which are estimated to be 0.10% higher than those of the closed-end fund.
- J Fund performance was positively affected by a temporary 2% fee on redemptions that was in effect from March 12, 2007, to March 12, 2008. Without income from this temporary fee, returns would have been lower.
- K Returns since the Class Y shares' inception date are actual returns. All other returns are blended returns of actual Class Y share performance and restated Class A share performance (for periods prior to the inception date of Class Y shares) at NAV and reflect the Rule 12b-1 fees as well as any fee waivers or expense reimbursements applicable to Class A shares.
- L Returns since the Class Y shares' inception date are actual returns. All other returns are blended returns of actual Class Y share performance and restated Investor Class share performance (for periods prior to the inception date of Class Y shares) at NAV and reflect the Rule 12b-1 fees as well as any fee waivers or expense reimbursements applicable to Investor Class shares.
- M Returns since the Class Y shares' inception date are actual returns. All other returns are blended returns of actual Class Y share performance and restated Class C share performance (for periods prior to the inception date of Class Y shares) at NAV and reflect the Rule 12b-1 fees as well as any fee waivers or expense reimbursements applicable to Class C shares.
- N Returns since the Class Y shares' inception date are actual returns. All other returns are blended returns of historical Class Y share performance and restated Cash Reserve share performance (for periods prior to the inception date of Class Y shares) at NAV and reflect the Rule 12b-1 fees applicable to Cash Reserve shares.
- O Performance includes litigation proceeds. Had these proceeds not been received, total return would have been lower.
- P The fund has been in existence for less than one year; cumulative performance may not be indicative of the fund's long-term performance potential.
- Q Returns since the Class S shares' inception date are actual returns. All other returns are blended returns of actual Class S share performance and restated Class A share performance (for periods prior to the inception date of Class S shares) at NAV and reflect the Rule 12b-1 fees as well as any fee waivers or expense reimbursements applicable to Class A shares.

† Preliminary data. Final data was not available at press time.

After-tax returns for AIM High Income Municipal Fund and AIM Municipal Bond Fund include sales charges of 4.75% for Class A shares, are calculated using the historical highest individual federal marginal income tax rate and do not reflect the effect of state and local taxes. After-tax returns on distributions reduce the distributions by the maximum tax rate before reinvestment. After-tax returns on distributions and sale of fund shares reduce the distributions by the maximum tax rate before reinvestment, assume holdings are redeemed at the end of the return period, and apply the appropriate tax rate to the capital gains or losses realized as a result of the redemption. Actual after-tax returns depend on the investor's tax situation and may differ from those shown. This information does not constitute tax advice. Please consult your tax adviser for more complete information.
